EDUCATION AND TRAINING

Master of Science in Informatics

Technical University of Munich [10/2020 – Current]

Bachelor of Engineering in Software Engineering

Nanjing University [09/2016 – 07/2020]

PROJECTS

Structured Report Generation

[05/2022 – Current]

Supervisor: Prof. Dr. Nassir Navab and M.Sc. Kamilia Zaripova

- Generating structured report dataset from scene graphs labels (RadGraph);
- Investigating several neural models that as input will have the imaging data and as output should present structured report.

3D Object Detection and Relocalization in Indoor Scenes

[10/2021 – 02/2022]

Supervisor: Prof. Dr. Matthias Nießner and M.Sc. Yujin Chen

- Fine-tuned and modified VoteNet and CenterPoint to detect objects in 3RScan & ScanNet dataset;
- Re-defined 3D relocalization and conducted experiments with VoteNet and CenterPoint in 3RScan.

3D Object Detection in Self-driving Cars

[04/2021 – 10/2021]

Supervisor: Prof. Dr. Daniel Cremers and Prof. Dr. Matthias Nießner

- Fine-tuned and modified PointNet and PointNet++ on semanticKITTI dataset;
- Adopted modified PointNet++ as backbone in VoteNet and fine-tuned the whole on KITTI 3D object detection dataset.

WORK EXPERIENCE

Research Assistant

TUM 3D AI Group [05/2022 – Current]

Supervisor: Prof. Dr. Angela Dai and M.Sc. Dávid Rozenberszki

- Developing ScanNet200 benchmark.

Research Assistant

TUM Model-based Systems & Qualitative Reasoning Group [05/2021 – 09/2021]

Supervisor: Prof. Dr. Peter Struss

- Managed and configured AWS cloud server;
- Configured and developed docker images.

Software Engineer

Nanjing Weiwu Internet Technology Co., Ltd. [09/2019 – 12/2019]

Supervisor: Feng Han

- Web development and maintainance;
- Managed databases.

DIGITAL SKILLS

Languages

Python / Java / HTML / SQL

Development environments

Linux

Frameworks

PyTorch

TEACHING EXPERIENCES

Tutor for Introduction to Informatics (IN8027)

[01/2022 – 02/2022]

- Addressed theoretical and coding questions raised by students during weekly office hours.
-
